Tips and Tricks

Here are some tips and tricks to help you play Chicken Invaders 5 multiplayer better:

- Collect power-ups to upgrade your weapons and boost your abilities. You can also share power-ups with your teammates by flying close to them.
- Avoid colliding with chickens, eggs, asteroids, or other hazards. You have three lives per wave and if you lose them all, you will have to wait until the next wave to respawn.
- Use your special attacks wisely. You have a limited number of missiles, mines, and satellites that can deal massive damage to enemies. You can also activate a super weapon that clears the screen of chickens once per wave.
- Watch out for boss battles. Every 10 waves, you will face a giant chicken boss that has different attacks and patterns. Work together with your teammates to dodge its attacks and find its weak spots.
- Have fun! Chicken Invaders 5 is a humorous and entertaining game that will make you laugh with its silly jokes and references. Don't take it too seriously and enjoy the ride.
